

JAPS TOO PATRIOTIC

Hawaii Teacher Objects to Visit to the Anegeawa.

Country school teachers do not tread a path of roses and sometimes their ideas of patriotism are somewhat jarred, as the following letter from a teacher on Hawaii indicates:

Hakalau, October 11, 1906.
Mr. W. H. Babbitt, Superintendent of Public Instruction, Honolulu.
Dear Sir: Finding myself again in a very peculiar position, I deem it right that the matter be brought to your attention.

Every year in November the Japanese celebrate the anniversary of their Emperor, and though living on American soil (Hawaii) they defy the laws of the country by keeping all the children away from school for two or three days without even saying "Excuse me."

Not satisfied with their November holidays, they again defy the laws by flocking into Hilo this week to see their glorious ship Anegeawa. Over twenty of my Japanese children are in Hilo since Monday and it is hard to tell when they will return. Only two came and asked to be excused, while the rest took "French leave."

To me this is very aggravating, because, after all my teaching of patriotism and respect to our flag, they show their patriotism by absenting themselves from school to celebrate any old Japanese holiday or event.

I know that all the schools along the line are in the same position, but I sincerely hope that you will do something to remedy such matters in the future. Respectfully yours,
E. S. CAPELLAS.

MUTINY IS SUPPRESSED

Education Board Says Teachers Must Obey.

The Board of Education held its regular meeting yesterday afternoon at 3:30 o'clock in the office of Superintendent Babbitt, who presided. Others in attendance were Commissioners Mrs. J. M. Dowsett, C. L. Wight, David Al and W. R. Farrington.

Leave of absence for two months was granted Principal Taggard, of the Kaili-waena school. Mr. Taggard's health is bad and he will visit Kona to recuperate. In his absence Mrs. Taggard will be advanced to the acting principalship.

The principalship of the Laupahoehoe school was not filled, as Mr. Swain, who recently resigned that position, may be induced to return to the school again.

Inspector King advised the board that he had closed the Kamaoa school on account of lack of attendance, only eight scholars being enrolled.

Mr. Irish, School Agent for Kau, has resigned and his place is to be filled by Mr. Eaton, who was endorsed by Inspector King.

The Superintendent announced that Miss Allie Felker, the able principal of Kaahumanu school, Honolulu, had succumbed to nervous prostration and for a week past has been confined in the hospital. A long leave of absence was asked for Miss Felker. The board granted the leave of absence, and Mrs. Creighton, one of the teachers at Kaahumanu, will be the acting principal.

Announcement was made that Rev. Mr. Mackintosh had recuperated from his recent illness to such an extent that he might be able to teach again in the near future.

Work has been started on the Kaili-waena school building.

The charges preferred against Teacher Plunkett, of the Nahiku, Maui, school, were discussed. These involved drunkenness and immoral conduct. The inspector of the district reported to the board that he had investigated the drunkenness charges and found them to be true. He had therefore suspended Plunkett on October 8, his pay also stopping at that time. The Board of Education sustained the Inspector's action. If Mr. Plunkett desires to make an explanation to the board he will be privileged to do so, although it is likely that he will be dismissed from the service.

Mrs. Mesick of the Kapaa, Kauai, school wrote the board concerning the water supplied the school, stating that it had its source in rather doubtful surroundings, where cattle drank of it. The water then ran through taro patches before reaching the school. At times there was no water. She asked for a water tank, which will be furnished her. She asked permission to open a night school and was granted the privilege.

Leave of absence for a brief period was granted Mrs. William K. Anahu, of the Kalahele, Molokai, school. Miss Bertha Ben Taylor, principal of the Waiholo, Kau, school wrote from Virginia asking that her leave of absence be extended for a few days longer than originally granted. She expects to leave San Francisco on November 3 for Honolulu and will take the Mauna Loa for the day of arrival here.

In the case of the Japanese girl at Waikeamau, Hawaii, wherein the parents desired to have her transferred to another public school, so that after hours she could attend a Japanese school at Hakalau, the board decided that the young lady could have her release from her present school. The Superintendent stated that under similar circumstances releases of a like character are granted in Honolulu frequently. Some objection from Hawaii had been made to the desired release.

The mention of this Japanese school caused Mr. Farrington to ask whether all the private schools in the Territory had conformed to the law; that is, had they made application to the Department of Public Instruction to open such schools, as laid down by the law. Superintendent Babbitt said he knew of none that had. He read that portion of the law relating to private schools. There was some question as to whether or not these schools be notified that they violated the law. Just what final action will be taken has not been decided, although in future proposed private schools will be required to observe the letter of the law.

A question of the relations between Miss Bond, principal of Makapala, Hawaii, school, and Mrs. McKenzie, a teacher, was discussed. It was shown by letters that Miss Bond, a Smith College graduate, desired Mrs. McKenzie to instruct the girls in the art of weaving. The request was not complied with by Mrs. McKenzie and the matter was taken up with the department headquarters. The board yesterday sustained Miss Bond's position in the premises. It was stated that there was an opportunity to set an example of obedience to the authority of principals, to be shown, not alone in the Makapala school, but for the benefit of all schools in the Territory. The board members were all agreed that any show of insubordination among teachers toward principals must be dealt with efficiently, otherwise the influence of principals would cease.

In the trial of the Ford libel against the steamer Ventura yesterday in the Federal court, Henry Vida denied having made a statement about Ford's condition when arrested to Mr. Derby on Saturday—much to the surprise of W. A. Kinney, who called him to give evidence like the alleged statement.

AMONG THE POLITICIANS

Gossip of the Street About Passing Campaign.

"All Iaukea needs," said an ex-machinist the other day, "is a fair count—something fairer than he had when he was a candidate for Delegate. If he gets that I believe you will see the end of the machine in Honolulu."

This remark brought out a question as to the reason for it: "Was it possible that the claim of Iaukea, on which he took his case to Washington, was based on any act of the opposition?"

"To the extent that the ballots were juggled," replied the man. "I know positively that it was the intention of the Republican machine to throw out the votes if the Democratic candidate was found to be in the lead. I know positively that four men, leaders in the Republican machine, left the Republican headquarters on election night for the Seventh Precinct polling place, in the Fifth District, with orders to rough-house the place if the count showed Iaukea ahead. Each man had his duty cut out for him, from the turning over of the table to smashing the light globes and carrying out the ballot box. That is not a pipe-dream, but an honest fact, and the men who took part in that mission are pretty active in the control of the police machine today. I personally have nothing against Brown, but I do object to keeping him in office to run the department of graft on machine principles. I do not believe the public has any particular grievance against the Sheriff aside from his determination to keep in the employ of the government men who are known to be grafters and dishonest men. It is all rot to say he must keep those men in the employ of the department; I know he can do without them if he wants to. I heard Willie Harris say the other day that the only way to defeat the Sheriff in his attempt to run the department on such extravagant lines was to put in the Board of Supervisors men who will cut down the appropriation to half the amount he gets now. I am anxious to see how much Harris will vote for if he is elected. He knows Brown and the necessities of the men who run the machine and I want to see what he will do to keep them up or down."

And what that man says seems to be a not uncommon opinion. They do not object to Brown, but to the friends he supports. They do not like the idea of having a convicted felon placed on the government payroll directly he is released from the jail, nor can they reconcile the fact that there is a large force of paid spies, presumably unknown to voters, with the frequent robberies and the continuous crap games on the public streets. What do the spies do for their pay?

To continually print sayings of individuals without giving their names suggests made-in-the-sanctum stories, but the fact is, the persons who give out information are in most instances men closely connected with the Republican party in Honolulu and they dare not talk for publication. One of them said to a reporter for the Advertiser the other day that it would be better if his name was not at any time mentioned in the Advertiser because, as the reporter was occasionally seen in the gentleman's office, it might be suspected that he was one who was giving information and the fact might hurt him.

WEEKLY WEATHER BULLETIN.

For the Week Ended October 13, 1906.

Honolulu, T. H., October 15, 1906.

GENERAL SUMMARY.

The rainfall was light generally over the entire group, the greatest amounts being reported from the west-central portions of the Kona district of Hawaii. There was an excess of rainfall over last week in the Kona and Kau, and the northern portion of the Hilo and western portion of the Kohala districts of Hawaii, the southwestern districts of Maui, generally in the eastern districts of Oahu, on Molokai, and generally in Kauai, but only in the Kona district of Hawaii did the changes exceed +2.00 inches. The greatest deficiencies, as compared with the preceding week, were reported from the eastern portion of the Kohala district of Hawaii, and the Koolau, Hamakua, and Hamakua-poko districts of Maui, but only in the Maui districts did they exceed 2.00 inches.

The mean temperatures for the week were generally higher, and appreciably so, than those of the preceding one; and at but three stations in the group were lower mean temperatures reported.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii,	74.8 deg.	0.78 inch.
Maui,	77.1 deg.	0.26 inch.
Oahu,	78.3 deg.	0.41 inch.
Kauai,	77.8 deg.	0.40 inch.
Molokai,	80.3 deg.	0.56 inch.
Entire group,	76.4 deg.	0.60 inch.

At the local office of the U. S. Weather Bureau in Honolulu, generally partly cloudy weather obtained, with measurable rainfall on three dates, amounting to .05 inch, .24 inch below the normal, and .04 less than last week. The mean temperature was 79.2 deg., 2.5 deg. above the normal, and 1.2 deg. higher than the preceding week. The mean relative humidity was 75.3 per cent; prevailing wind direction northeast, with an average hourly velocity of 6.3 miles. The northeasterly "trades" were re-established about 12 noon of the 9th.

REMARKS BY CORRESPONDENTS.

(Note.—The figures following the name of a station indicate the date with which the week's report closed. Comparisons of temperature and rainfall are made with the date for the preceding week.)

ISLAND OF HAWAII.

Puuhua Ranch (11)—The days were warm, with cool nights, light winds, and heavy rains from the south on the 5th and 7th. Rainfall, 1.77 inches, +6.2 inch.—S. P. Woods.
Puakea Ranch (11)—The weather was

slightly warmer, with southerly winds the fore part of week, attended with a heavy rain on the 7th. Mean temperature, 74.9 deg., +5.5 deg.; rainfall, 1.15 inches.—A. A. Mason.

Kohala Mill (11)—Light winds prevailed, with appreciably warmer weather, but cool nights. Mean temperature, 78.4 deg., +1.8 deg.; rainfall, .31 inch.—L. H. Little.

Kohala Mission (12)—Much warmer, generally clear weather obtained. Mean temperature, 76.0 deg., +2.0 deg.; rain-

GOT LARGE DAMAGES

Juror Trapp's Attorney Is Residing in Honolulu.

Among recent applicants for a license to practice law in the Territory is S. E. Faron, an attorney and counselor of the New York Supreme Court.

Mr. Faron was in Hawaii in 1887 and was employed for some time as book-keeper at Kukuihaele plantation.

After a time he returned to the States, but could not overcome his aloha for the land and came back to Honolulu last June.

"There is a wonderful change in the place," said Faron, yesterday. "In 1888 all the white folks here had money to burn. Times do not seem to me to be nearly so prosperous now, but I have great hopes for the future. Honolulu is certainly one of the most enterprising places I have ever been in."

The attorney enjoys the distinction of having secured the biggest verdict ever obtained against the New York Press Publishing Company. He was retained by J. E. Trapp in his libel suit against the New York World, controlled by the New York Press Publishing Company, and the verdict for the plaintiff was damages amounting to \$125,000 and costs, which was paid without appeal.

Trapp was a juror in the trial of John Y. McKane, called "The Czar of Coney Island" and "The Maker of Presidents." McKane was indicted for illegal registration of voters, was convicted and served six or seven years in jail despite the fact that he was a millionaire.

Juror Trapp was accused in the New York World of having received a bribe to influence his fellow jurors in the case of the people against McKane.

A delegate to the last Republican convention said to a reporter yesterday: "The stand the Advertiser has taken is the correct one, but it may have overdone it. Brown should not be elected, and I hope he will not be. I am a business man here, and I have contributed toward the campaign fund because I felt that I had to, but I am heart and soul with the Advertiser in its attempt to defeat him and thus end the machine. I do not know that the paper can prove anything more against Brown than that he is at the head of the machine, and as it has proven that, I consider it sufficient cause to retire him for a time. The stir the paper has caused in the gambling circles has done some good, for it has caused Moore to close up, for a time, at least. Moore is a smart gambler, but he seemed to have forgotten some of his smartness when he opened up his place at this time when the paper is hard after him. I believe he has been a heavy loser in his last venture, for I have it that he is up against it for about a thousand dollars on the week he ran the Nuuanu street joint. And he is afraid to reopen. Every time he does so the paper finds it out and he is pulled, and the last time put him pretty close to the reef and he dreads the experience. The police could have had stronger evidence against him had they wanted to, for there was the layout for craps, and in the matter of evidence it makes no difference whether it is a four-dollar layout for craps or a thousand-dollar layout for roulette. I am told he has a faro layout in the house, but it has not been in use."

Cool as the stream that flows from the snows of Mauna Kea is a limpid, refreshing glass of

fall, .66 inch, —1.75 inches.—Dr. B. D. Bond.
Niihii (11)—The weather was excessively warm and dry. Rain is greatly needed. Mean temperature, 77.1 deg., +3 deg.; rainfall, .02 inch, —1.24 inches.—F. C. Paetow.
Waimea (12)—Warmer weather obtained, with rain on three dates, amounting to 2.00 inches, +1.50; mean temperature, 72.8 deg., +1.7 deg.—James Laird.
Honokaa (12)—The mean temperature, 76.0 deg., was 1.3 deg. higher, and there was no rainfall, .47 inches less.—S. Gundelfinger.
Paauhau (11)—The weather was slightly warmer, with a mean temperature of 76.2 deg., +4 deg., and no rain, —.73 inch.—Paauhau Sugar Plantation Co.
Paaulo (11)—Clear, warm weather, with light winds, followed by windy the latter part of week. An excessively heavy rainfall occurred at higher altitudes on the 7th, causing high water in most of the gulches east of Kohololei—reaching the sea about 12 noon. Mean temperature, 77.0 deg., +1.0 deg.; rainfall, .18 inch, —.77.—C. R. Blacow.
Ookala (11)—The weather continued warm and dry. Mean temperature, 73.2 deg., —2.2 deg.; rainfall, .24 inch, —.23.—W. G. Walker.
Laupahoehoe (11)—The weather was fine, with the exception of a rainstorm on afternoon of 5th. Sea smooth. Rainfall, 2.65 inches, +1.99.—T. W. Barnard.
Papaalooa (11)—Warm days, cool nights, and light winds prevailed, with no rainfall.—C. McLennan.
Honohina (11)—Bright, warm weather prevailed, with no rainfall, —1.00 inch.—W. Elliot.
Hakalau (11)—Extremely warm weather obtained, with no rainfall, —.92 inch.—Hakalau Plantation Co.
Honoumou (12)—The weather was warm and dry, with light showers on the 11th and 12th, amounting to .18 inch, —.28.—Wm. Pullar.
Pepeekeo (11)—The mean temperature was 76.3 deg., +3, with .22 inch of rainfall, —.39.—Wm. H. Rogers.
Papaikou (11)—Clear, excessively warm and dry weather obtained, with no indications of rain. Rainfall, .03 inch, —.33.—John T. Moir.
Hilo (11)—Dry, warm weather prevailed. On the 7th heavy showers occurred in the woods, causing a freshet in the river. Mean temperature, 75.7 deg., +1.0 deg.; rainfall, .11 inch, —.39.—L. C. Lyman.
Ponohualo (11)—Fine, warm and dry weather, with light trade winds prevailed. Total rainfall, .08 inch, —.56; mean temperature, 72.8 deg., +2 deg.—J. E. Gamalielson.
Kauauna (11)—Generally clear, warm and dry weather obtained. Rain amounting to .15 inch fell on two dates, —.84. Mean temperature, 72.2 deg., +4 deg.—J. E. Gamalielson.
Olao (11)—Warm days and cool nights obtained. Mean temperature, 75.6 deg.; rainfall, .85 inch.—Eug. P. McCann.
Kapoho (11)—Partly cloudy days and clear nights obtained. Northeasterly winds have prevailed since the 9th, but without bringing rain. Mean temperature, 75.9 deg., +1.7 deg.; rainfall, .12 inch.—L. H. J. Lyman.
Pahala (10)—Excessively warm, dry weather prevailed, with little wind. Rainfall, .19 inch.—G. G. Kinney.
Kau (10)—Light northeast winds and calms prevailed, with rains on three dates. Total for week, .93 inch. Mean temperature, 79.6 deg.—Fred. H. Hayselden.
Kealahou (11)—Heavy rains occurred on the first three days and showers daily thereafter. Rainfall, 3.96 inches, +2.97.—Robert Wallace.
Kealahou (10)—Partly cloudy and cloudy weather obtained, with heavy rains on the 6th and 8th. Mean temperature, 73.8 deg., +1.0 deg.; rainfall, 5.49 inches, +4.77.—Rev. S. H. Davis.
Puuhua (11)—Good weather prevailed during the entire week. Rainfall, .76 inch.—Robert Hind.

ISLAND OF OAHU.
Kahuku (12)—Partly cloudy, rather humid weather, with northwesterly winds, prevailed. The rainfall occurred mostly at night, and amounted to .34 inch, .38 less. Mean temperature, 77.0 deg., —no change.—R. T. Christopher.
Maunawili Ranch (13)—The mean temperature was 76.5 deg., +3.0 deg., and the rainfall, 1.36 inches, +1.12.—John Heard.
Waimanalo (12)—Slightly warmer, with a mean temperature of 80.0 deg., +5 deg., and .60 inch rainfall, +.37.—A. Irvine.
Walawa (12)—The mean temperature, 77.0 deg., was 1.7 deg. higher, and the rainfall, .30 inch, .28 more.—W. R. Waters.
Ewa (13)—The weather was slightly warmer, with higher night temperatures, and frequent warm showers, amounting to .19 inch, .17 more. Mean temperature, 78.4 deg., 1.6 deg. higher.—R. Muller.
Walanale (12)—The weather was rather warm, with high winds the latter part of week. Mean temperature, 79.4 deg., +4 deg.; rainfall, .04 inch, that amount greater.—F. Meyer.

ISLAND OF KAUAI.
Kealia (12)—Several showers occurred, with the 8th a general rainy day with .44 inch of rain, since which date the trade winds have prevailed. Mean temperature, 76.1 deg., —1.1 deg.; rainfall, .72 inch, +.40.—W. Jarvis.
Lihue (12)—Very warm weather continued, with light rains amounting to .17 inch, .21 less. The mean temperature was 77.6, +1.2 deg.—F. Weber.
Koloa (12)—The days were warm, with light showers, amounting to .75 inch, +.65. The mean temperature, 77.8 deg., was 1.8 deg. higher.—The Koloa Sugar Co.
Elele (12)—Very warm weather obtained, with no rainfall.—McBryde Sugar Co.
Makawili (12)—Warm and cloudy weather obtained, with rain in early part of week, amounting to .35 inch, that amount greater. Mean temperature, 79.6 deg., +1.0 deg. The trade winds were re-established on the 10th.—Hawalian Sugar Co.

ISLAND OF MOLOKAI.
Mapulehu (12)—Light rains occurred daily, with the exception of the 8th. Mean temperature, 80.3 deg., +1.3 deg.; rainfall, .56 inch, +.46.—C. C. Conradt.
